Documents 1 to 20 of 116 from your search "**hair AND ( growth OR reproduction )**" in all the available information:

Number of titles selected from other pages: 0

☐ **Select All**
☐ 1 [display full document](#)

2005. (INZZ) Characteristics of distortion product otoacoustic emissions in the frog from L/sub 1/, L/sub 2/ maps.

☐ 2 [display full document](#)

2004. (INZZ) Efficiency of broadband pulsed light sources in cosmetology.

☐ 3 [display full document](#)

2004. (INZZ) Isoflurane increases amplitude and incidence of evoked and spontaneous otoacoustic emissions.

☐ 4 [display full document](#)

2004. (INZZ) Coming out of cold storage.

☐ 5 [display full document](#)

2004. (INZZ) Directional compounding of polyaniline on surface of NaFe/sub 4/P/sub 12/ whisker.

☐ 6 [display full document](#)

2005. (INZZ) Bone morphogenetic protein (BMP) signaling controls **hair** pigmentation by means of cross-talk with the melanocortin receptor-1 pathway.

☐ 7 [display full document](#)

2004. (INZZ) Mathematical analysis of competition between sensory ganglion cells for neurotrophic factor in the skin.

☐ 8 [display full document](#)

2004. (INZZ) Multiple view reconstruction of people.

☐ 9 [display full document](#)

2003. (INZZ) A critical period for gravitational effects on otolith formation.

☐ 10 [display full document](#)

2004. (INZZ) Effect of salicylate on outer **hair** cell plasma membrane viscoelasticity: studies using

optical tweezers.

☐ 11 [display full document](#)

2003. (INZZ) 6th NASA Symposium on The Role of the Vestibular Organs in the Exploration of Space.

☐ 12 [display full document](#)

2004. (INZZ) Biomechanics of microscopic appendages: functional shifts caused by changes in speed.

☐ 13 [display full document](#)

2003. (INZZ) Auditory response to intracochlear electric stimuli following furosemide treatment.

☐ 14 [display full document](#)

2004. (INZZ) Wall structure and surface chemistry of hydrothermal carbon nanofibres.

☐ 15 [display full document](#)

2003. (INZZ) Four-dimensional imaging and computer-assisted track analysis of nuclear migration in root hairs of Arabidopsis thaliana.

☐ 16 [display full document](#)

2003. (INZZ) A T-type calcium channel required for normal function of a mammalian mechanoreceptor.

☐ 17 [display full document](#)

2003. (INZZ) Microstructural investigation and magnetic properties of CoFe/sub 2/O /sub 4/ nanowires synthesized inside carbon nanotubes.

☐ 18 [display full document](#)

2003. (INZZ) Visualization of topically applied fluorescent dyes in **hair** follicles by laser scanning microscopy.

☐ 19 [display full document](#)

2002. (INZZ) Laser-assisted **hair** removal: 2001 update.

☐ 20 [display full document](#)

2003. (INZZ) **Growth** of walled cells: from shells to vesicles.

[previous  
titles](#)[next titles](#)

Documents 41 to 60 of 116 from your search "**hair AND ( growth OR reproduction )**" in all the available information:

Number of titles selected from other pages: 0

☐ **Select All**☐ 41 [display full document](#)

2000. (INZZ) Distortion product otoacoustic emission (2f<sub>1</sub>-f<sub>2</sub>) amplitude **growth** in human adults and neonates.

☐ 42 [display full document](#)

1999. (INZZ) Analysis of the f<sub>2</sub>/f<sub>1</sub> and 2 f<sub>1</sub>/f<sub>2</sub> distortion components generated by the **hair** cell mechanoelectrical transducer: Dependence on the amplitudes of the primaries and feedback gain.

☐ 43 [display full document](#)

1999. (INZZ) Inter-relationship between different psychoacoustic measures assumed to be related to the cochlear active mechanism.

☐ 44 [display full document](#)

1999. (INZZ) Face recognition from profiles using morphological operations.

☐ 45 [display full document](#)

1999. (INZZ) Effects of aspirin on psychophysical measures of frequency selectivity, two-tone suppression, and **growth** of masking.

☐ 46 [display full document](#)

1999. (INZZ) Further evaluation of a model of loudness perception applied to cochlear hearing loss.

☐ 47 [display full document](#)

1999. (INZZ) Low-frequency modulation of the 2f<sub>1</sub>/f<sub>2</sub> distortion product otoacoustic emissions in the human ear.

☐ 48 [display full document](#)

1999. (INZZ) Maturation of medial efferent system function in humans.

☐ 49 [display full document](#)

1998. (INZZ) Cochlear mechanisms of frequency and intensity coding. II. Dynamic range and the code for loudness.

☐ 50 [display full document](#)

1998. (INZZ) In-situ laser power/energy monitoring in biomedical applications.

☐ 51 [display full document](#)

1998. (INZZ) Guinea pig auditory neurons are protected by glial cell line-derived **growth** factor from degeneration after noise trauma.

☐ 52 [display full document](#)

1998. (INZZ) Onset of basilar membrane non-linearity reflected in cubic distortion tone input-output functions.

☐ 53 [display full document](#)

1998. (INZZ) Recruitment compensation as a hearing aid signal processing strategy.

☐ 54 [display full document](#)

1998. (INZZ) Radiation sensitivity of human **hair** follicles in SCID-hu mice.

☐ 55 [display full document](#)

1998. (INZZ) Amplitude recruitment of cochlear potential.

☐ 56 [display full document](#)

1998. (INZZ) Enhancement of electrically evoked oto-acoustic emissions associated with low-frequency stimulus bias of the basilar membrane towards scala vestibuli.

☐ 57 [display full document](#)

1998. (INZZ) A developmental study of distortion product otoacoustic emission (2f1- f2) suppression in humans.

☐ 58 [display full document](#)

1998. (INZZ) Acoustic distortion products from the ear of a grasshopper.

☐ 59 [display full document](#)

1997. (INZZ) Reconstruction of hearing thresholds by means of DPOAE.

☐ 60 [display full document](#)

1998. (INZZ) A descriptive model of the receptor potential nonlinearities generated by the **hair** cell mechano-electrical transducer.

Documents 61 to 80 of 116 from your search "**hair AND ( growth OR reproduction )**" in all the available information:

Number of titles selected from other pages: 0

☐ **Select All**☐ 61 [display full document](#)

1997. (INZZ) Transmitter release in inner **hair** cell synapses: a model analysis of spontaneous and driven rate properties of cochlear nerve fibres.

☐ 62 [display full document](#)

1996. (INZZ) Formation of "**hair**" inclusions in rapidly grown potassium dihydrogen phosphate crystals.

☐ 63 [display full document](#)

1996. (INZZ) Electrically evoked cubic distortion product otoacoustic emissions from gerbil cochlea.

☐ 64 [display full document](#)

1995. (INZZ) Hearing loss and cochlear abnormalities in the congenital hypothyroid (hyt/hyt) mouse.

☐ 65 [display full document](#)

1995. (INZZ) Processes in the cochlea of the inner ear.

☐ 66 [display full document](#)

1993. (INZZ) Creating virtual fur and **hair** styles for synthetic actors.

☐ 67 [display full document](#)

1995. (INZZ) OHC response recruitment and its correlation with loudness recruitment.

☐ 68 [display full document](#)

1994. (INZZ) Energy-saving: power (kW) or energy (kWh).

☐ 69 [display full document](#)

1994. (INZZ) Two-tone suppression in a locally active nonlinear model of the cochlea.

☐ 70 [display full document](#)

1994. (INZZ) Morphogenesis and bioluminescence in germination of red bean.

☐ 71 [display full document](#)

1993. (INZZ) XTEM study of 1 MeV argon ion implantation induced defects in Si and their annealing behavior.

☐ 72 [display full document](#)

1994. (INZZ) Hairy carbon electrodes studied by cyclic voltammetry and battery discharge testing.

☐ 73 [display full document](#)

1993. (INZZ) Effects of various solutions on cutting and crack **growth** of soda-lime glasses.

☐ 74 [display full document](#)

1993. (INZZ) Distortion in the cochlea: acoustic f/sub 2/-f/sub 1/ at low stimulus levels.

☐ 75 [display full document](#)

1993. (INZZ) Can gravitational waves prevent inflation?

☐ 76 [display full document](#)

1993. (INZZ) Two-tone suppression of inner **hair** cell and basilar membrane responses in the guinea pig.

☐ 77 [display full document](#)

1993. (INZZ) **Hair** medullary cell counts following low-dose-rate gamma - and high- energy neutron irradiation.

☐ 78 [display full document](#)

1992. (INZZ) Distortion-product emissions and auditory sensitivity in human ears with normal hearing and cochlear hearing loss.

☐ 79 [display full document](#)

1991. (INZZ) Morphological correlates of mechanotransduction in acousticolateral **hair** cells.

☐ 80 [display full document](#)

1992. (INZZ) Fibroblast **growth** factor (FGF) implication in the neonatal development of the cochlear innervation.

Documents 81 to 100 of 116 from your search "**hair AND ( growth OR reproduction )**" in all the available information:

Number of titles selected from other pages: 0

☐ **Select All**☐ 81 [display full document](#)

1991. (INZZ) Development of otoacoustic emissions in gerbil: evidence for micromechanical changes underlying development of the place code.

☐ 82 [display full document](#)

1990. (INZZ) Inner **hair** cell responses to the  $2f/\text{sub } 1/-f/\text{sub } 2/$  intermodulation distortion product.

☐ 83 [display full document](#)

1990. (INZZ) Numerical study of a three-dimensional vortex method.

☐ 84 [display full document](#)

1989. (INZZ) Differential response of rapidly- and slowly-proliferating **hair** follicles of mice to fractionated irradiation.

☐ 85 [display full document](#)

1989. (INZZ) Nonlinearities in cochlear receptor potentials and their origins.

☐ 86 [display full document](#)

1989. (INZZ) Biological effects of ELF electric and magnetic fields.

☐ 87 [display full document](#)

1988. (INZZ) The neuroanatomical substrate for information processing in macular endorgans.

☐ 88 [display full document](#)

1988. (INZZ) Phase transformations during stabilisation of Cu-Zn-Al martensite.

☐ 89 [display full document](#)

1988. (INZZ) The effect of acoustic trauma on the tectorial membrane, stereocilia, and hearing sensitivity. Mechanisms underlying damage, recovery, and protection.

☐ 90 [display full document](#)

1987. (INZZ) Acoustic distortion from rodent ears: a comparison of responses from rats, guinea pigs and gerbils.

- ☐ 91 [display full document](#)  
1987. (INZZ) The effect on depigmentation after multifractionated irradiation of mouse resting **hair** follicles.
- ☐ 92 [display full document](#)  
1987. (INZZ) A model of the generation of the cochlear microphonic with nonlinear **hair** cell transduction and nonlinear basilar membrane mechanics.
- ☐ 93 [display full document](#)  
1987. (INZZ) Mixed conductive and sensorineural hearing loss in LP/J mice.
- ☐ 94 [display full document](#)  
1986. (INZZ) Submicron lithography.
- ☐ 95 [display full document](#)  
1986. (INZZ) Changes in stereocilia micromechanics following overstimulation in metabolically blocked **hair** cells.
- ☐ 96 [display full document](#)  
1986. (INZZ) **Growth** of threshold shift in **hair-cell** stereocilia following overstimulation.
- ☐ 97 [display full document](#)  
1986. (INZZ) Effects of X-irradiation on rat **hair** follicles.
- ☐ 98 [display full document](#)  
1985. (INZZ) The effects of cochlear hypothermia on compound action potential tuning.
- ☐ 99 [display full document](#)  
1984. (INZZ) Collection, preparation, and analysis of human scalp **hair** for trace elements.
- ☐ 100 [display full document](#)  
1984. (INZZ) Frequency distribution of two-tone suppression in forward masking.

Documents 101 to 116 of 116 from your search "**hair AND ( growth OR reproduction )**" in all the available information:

Number of titles selected from other pages: 0

☐ **Select All**☐ 101 [display full document](#)

1984. (INZZ) The modulation of the sensitivity of the mammalian cochlea by low frequency tones. I. Primary afferent activity.

☐ 102 [display full document](#)

1984. (INZZ) Microtubules in the cochlea of the hypothyroid developing rat.

☐ 103 [display full document](#)

1984. (INZZ) New, quieter photodiodes promise to catch speeding lightwaves.

☐ 104 [display full document](#)

1983. (INZZ) Suppression of auditory nerve responses. II. Suppression threshold and **growth**, iso-suppression contours.

☐ 105 [display full document](#)

1981. (INZZ) The behavior of adhered fragments interposed between sliding surfaces and the formation process of wear particles.

☐ 106 [display full document](#)

1981. (INZZ) Telecommunications economics within the frame of the financial- economical practice of the Federal German Post Office.

☐ 107 [display full document](#)

1981. (INZZ) Effect of the diffusion field of water vapor and the crystal size on the morphology of ice crystals grown from the vapor phase.

☐ 108 [display full document](#)

1979. (INZZ) Assessment of rate of **hair growth** using a simple trichometer.

☐ 109 [display full document](#)

1979. (INZZ) Further studies on the Schroeder-Hall **hair-cell** model.

☐ 110 [display full document](#)

1975. (INZZ) The effect of an electrostatic field on the mitosis of cells.

☐ 111 [display full document](#)

1974. (INZZ) The **growth** and morphology of silver whiskers.

☐ 112 [display full document](#)

1974. (INZZ) Systems analysis and the design of agricultural plants.

☐ 113 [display full document](#)

1974. (INZZ) Distance and film-thickness damping in a cylindrical recording carrier.

☐ 114 [display full document](#)

1973. (INZZ) Electron microscope study of the structure of natural pyrolusite (pseudo-psilomelane).

☐ 115 [display full document](#)

1973. (INZZ) Direct current potentials due to parametric excitation of cochlear **hair** cells.

☐ 116 [display full document](#)

1971. (INZZ) Preliminary observations on the effects of exposure to noise for seven days on the hearing and inner ear of the chinchilla.
